

**FANUC CRX-25iA**  
**Payload : 25kg/55lbs**  
**Reach: 1889mm/74in**

## Revolutionize Your Workflow with the Ultimate Palletizing Solution

The **FANUC CRX-25iA** collaborative robot is at the center of this **portable palletizing station**. These compact stations save floorspace and are easy to install and setup. Operators are safe as they replace full pallets.

Being portable to other locations in the facility is a breeze with fork pockets and leveling pads integrated into the base for easy transportation and setup.

**Area scanners allow full speed without additional barriers**

## Benefits

- FANUC CRX-25iA is an industrial robot
- Up to 8 cycles per minute
- Portability with reliability and flexibility
- Save floorspace with compact design
- Small vacuum tool included
- Quick end of arm tooling exchange
- Permanent fencing is not required
- Quickly see ROI with the low operating cost
- Easy to setup through Industrial HMI with MCRi's Pallet Configurator Software
- Remote access module for 24/7, year-round M-Tech Support
